

One Frame Technology[®]

Featuring  Windows

Viwinco utilizes Four-Point Fusion Welding exclusively on every window sash and frame that they manufacture in their state-of-the-art fabrication plant. This process creates a strong and durable one-piece sash and frame which eliminates warping or bowing in all windows. All window corners are precision heat welded at 490° for ultimate strength, which wood, fiberglass and composite windows can not duplicate.

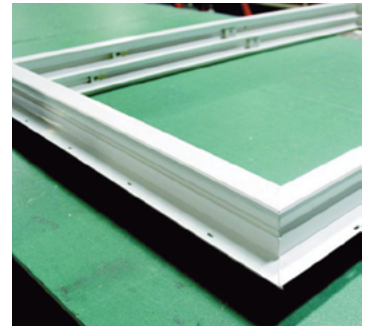

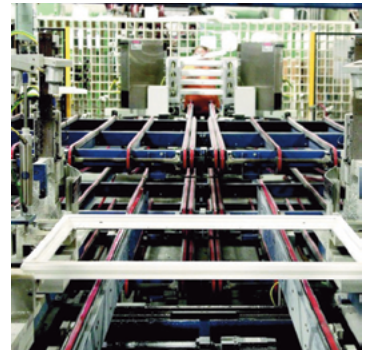

All wood, fiberglass and composite windows have an Achilles Heel—the corners on all of their frames and sash are cut pieces that are fastened, screwed, caulked and sealed, which can deteriorate over time, causing water penetration, moisture problems or costly repairs.

Typical wood, fiberglass and composite window corner

Fastened, screwed, caulked and sealed at every corner

Viwinco windows with their “One Frame Technology™” will not split, rot, expand, contract or gap open. This allows Viwinco windows to achieve excellent structural ratings, including low air-infiltration, and eliminates water penetration.

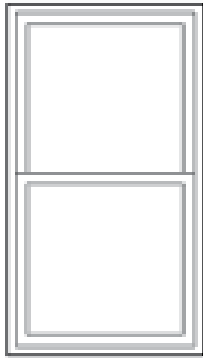

One Frame Technology®

Windows Have A Superior Warranty

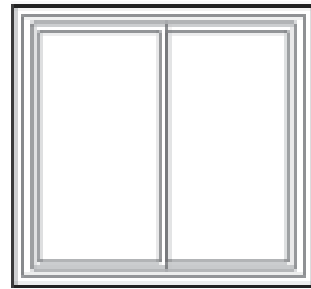

| Window | Typical Wood Window | Viwinco |
|-----------------|---------------------|--------------------------|
| Frame and Sash | 10-Year Limited | LIFETIME |
| Insulated Glass | 20-Year Limited | LIFETIME |
| Hardware | 10-Year Limited | LIFETIME |
| Glass Breakage | N/A | LIFETIME on Cambridge |
| Labor | N/A | 1-YEAR FULL COVERAGE |

One Frame Technology[®]

Wholesale Siding Depot teams with Viwinco Windows to offer exclusive One Frame Technology[®] on all of their window product lines.

History

Wholesale Siding Depot is locally owned and operated by the Krisanic family since 1996, having four family members involved in the business— Julius, Carl, Chris and Michael.

Innovation

While customer service is our #1 goal, we are committed to leading the industry in the St. Louis Metro area with training and knowledge about our products and services including our Open House, Newsletter, Website, Seminars, Meetings and Radio Advertising.

Experience

The management team and customer service group has over 100 years of combined experience in exterior building materials and have professionally been involved and witnessed the development and improvement of a diverse range of exterior building materials. This experience has instilled a strong respect for long lasting, durable, high-quality building materials. For that reason we carry only superior performing building materials, making those products affordable to our customers.

All Viwinco Windows are

Compliant

Family-owned and operated since 1982.

We entered the window manufacturing business almost 30 years ago and are proud to be a leader in the industry today. We design and manufacture vinyl windows for both the new construction and replacement industries.

Viwinco stands for high quality. We continuously look to enhance our product offerings both in looks and function while providing you the energy-efficiency you want for your home. Every window we produce is custom-made to your exact specifications so you can be sure of a perfect fit and installation every time. Best of all, we can make your custom vinyl windows in just 7 days.

With our 140,000 square-foot, state-of-the-art fabrication plant and 30,000 square-foot Research and Development facility, we have created manufacturing processes that enable us to also produce our own specialty glass including tempered (also known as safety glass) and laminated glass (which is impact-resistant) in-house as well as the unique shapes of geometric windows, all within the most aggressive of construction schedules.

Thanks for your interest in our vinyl windows. We guarantee you'll be happy with your new Viwinco replacement windows or our new construction ones!

All Viwinco Windows are delivered weekly in their dedicated fleet of trucks
